Transform any TV into a KPI, OEE and Andon display in minutes.

The new ProductVity Station™ from Red Lion lets you create your own interactive, real-time productivity scoreboard using an inexpensive consumer LCD/LED or plasma TV. Link your process to visible performance and watch productivity rise immediately!

- Display real-time performance metrics: counts, rates, targets, time, KPI, Takt, OEE
- Andon features display warnings, alerts, calls, line status, maintenance, timers
- Display vital communications, safety, operator guidance, messaging, reminders

Connects. Collects. Displays. Records. Notifies.

- Over 200 communication drivers to interface with PLCs, drives, motion controllers, etc.
- Logs KPIs and andon events locally – synchronizes with FTP or Microsoft® SQL Server®.
- Sends real-time displays to web browsers. Sends text and email alerts to mobile phones and devices.

Maximize productivity with monitoring and motivation. ProductVity Station points the way to optimum performance for your entire plant floor.
