Industrial Networking

Product:

- Red Lion N-Tron Series N-View 64-bit Software

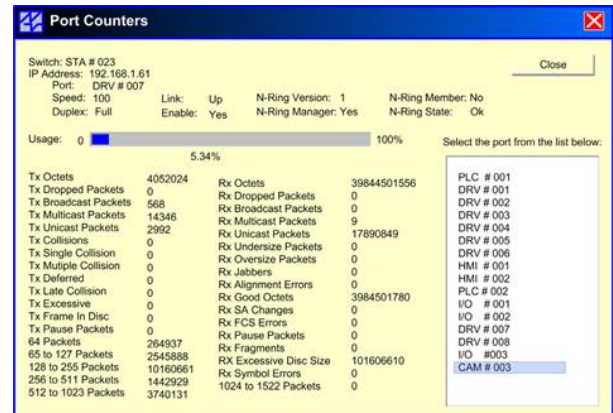

Date: December 2013

Overview:

Red Lion enhances its N-Tron N-View offering with a new Windows application to support Windows XP, Windows 7 and Windows 8 64-bit operating systems.

Innovative Features:

The N-View software provides complete remote traffic and status monitoring for Red Lion's N-View capable Ethernet switches: the N-Tron 300-N, 500-N, 500-A, 700, 7000 and NT-24K switch series. N-View capable switches will autocast a small Ethernet packet periodically containing port-by-port status along with switch level parameters. The data is displayed by the N-View Windows application that is provided with all N-Tron N-View capable devices.

N-View Supported Operating Systems:

- Windows XP (32 and 64 bit)
- Windows 7 (32 and 64 bit)
- Windows 8 (32 and 64 bit)

N-View OPC:

N-View OPC monitoring and OPC server support for Windows 32-bit operating systems is also provided with all N-View capable devices. N-Tron N-View OPC (OLE for Process Control) Server software will work with most popular Human Machine Interface (HMI) packages to provide remote monitoring.

N-View OPC Supported 32-Bit Operating Systems:

- Windows NT 4.0 w/SP4 or later
- Windows 2000
- Windows XP
- Windows Vista
- Windows 2003 Server
- Windows 7
