NT5000 Teaser Post 2

 **Red Lion Controls** Jan 12, 2:00 pm

Imagine a single point where administrators can quickly see active ports, traffic and errors. The new **N-Tron® Series** switches make it possible.

See active ports,
traffic and errors
– all in one place.

The N-Tron® Series NT5000
makes it possible.

NT5000 Teaser Post 3

 **Red Lion Controls** Jan 17, 1:58 am

Choose industrial Ethernet-managed switches that are compact, intuitive, feature-rich and offer multiple port configurations. Get the gigabit performance you need in a switch that is compact, easy to use and reliable. **The future is now only from Red Lion®.**

[#Networking](#) [#IndustrialNetworking](#)
[#ManagedEthernetSwitches](#) [#EthernetSolutions](#)
[#TheIndustrialDataCompany](#) [#RedLionControls](#) [#IIoT](#)

-  Reliability
-  Ease-of-use
-  Security features
-  Gigabit speed

NT5000 Teaser Post 4

 **Red Lion Controls** Jan 16, 12:56 pm

Compact, durably built, innovative connectivity, exceptional intuitive graphical interface. Expect more from your network's switches. Our new **N-Tron® Series NT5000** gigabit managed Layer 2 switches are designed for network reliability, both today and tomorrow.
