

Red Lion® PAX2 Series Panel Meters End of Life Notice

Red Lion announces the end of life for the PAX2 panel meter products. This includes the PAX2A Analog Input meters, the PAX2D Digital Input Panel Meter and the PAX2S Strain Gauge Panel Meter. With the introduction of the PM50, slowing sales and parts availability are forcing this EOL announcement. We will offer a Last Time Buy which will be available until the case parts are depleted, after which the product will be no longer available.

EOL Part Numbers	Description	Replacement Part Number	Description
PAX2A000	Dual Line, Analog Input Meter	PM500A0400800F00	Graphical Display, Analog Input ²
PAX2D000	Dual Line, Digital Input Meter	PM500D0400800F00	Graphical Display, Digital Input ²
PAX2S000	Dual Line, Strain Gauge Input Meter	PAXS0010 ¹	Single Line, Strain Gauge Meter
¹ The PAXS0010 is a single line meter, see specification for details.			
² For AC applications a PMM000PWACP00000 power supply module is required			

Configuration files are available to assist programming the PM50 similar to the PAX2 meters. For more information on the Red Lion Panel Meter Products, please visit www.redlion.net.
